ABOUT NURIMTECH.AI

The Leader's Vision

LEADER QUOTE

"I founded NurimTech.ai after 20+ years at Atlassian, Microsoft, and Veritas — because enterprises were stuck between AI ambition and execution reality. NurimTech delivers specialist expertise, lean execution, and speed-to-value across AI, Cloud, Recruitment, and Upskilling. We are your 360° transformation partner."

Julkar Bagwan — Founder, CEO & Managing Partner, NurimTech.ai

WHERE DO YOU STAND IN YOUR AI TRANSFORMATION JOURNEY?

Where Do You Really Stand In AI?

Every organisation is at a different stage.

The right approach depends on where you stand today.

Most organisations misjudge their stage – and pay for it later.

1: Exploring AI

- No clear roadmap
- Multiple vendor conversations
- Uncertain ROI

"Too many vendor conversations, no internal ownership. Everyone has an opinion. Nobody has a plan."

Start with: AI & Cloud Readiness Assessment – one 30-minute session, clear roadmap out.

2: Already Investing in AI

- Pilots without clear outcomes
- Data / integration challenges
- Low adoption

"Pilots prove the tech but not the business case. Data pipelines not ready. Adoption at zero."

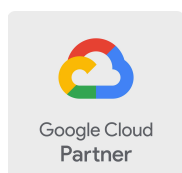

Fix with: Structured execution & governance – PoC-to-Production in 3 phases, not 3 years.

3: SCALING AI TRANSFORMATION

- Need leadership hiring
- Workforce capability gaps
- Scaling across business units

"Right strategy, wrong people. Leadership gaps slow everything. Teams not trained for what's been deployed."

Achieve with: 360° alignment – leadership hiring, cloud execution, and upskilling running in parallel.
